

MELLAND HIGH SCHOOL

SEX AND RELATIONSHIP EDUCATION POLICY

Sex and Relationship Education (SRE) is lifelong learning about physical, sexual, moral and emotional development. It is about the understanding of the importance of stable and loving relationships, respect, love and care, for family life. It involves acquiring information, developing skills and forming positive beliefs, values and attitudes.

1. Principles and Values

Melland High School believes that SRE should :

- Be an integral part of the lifelong learning process, beginning in early childhood and continue into adult life.
- Be an entitlement for all young people
- Encourage every student to contribute to make our community and aims to support each individual as they grow and learn.
- Be set within this wider school context and supports family commitment and love, respect and affection, knowledge and openness. Family is a broad concept; not just one model, e.g. nuclear family. It includes a variety of types of family structure, and acceptance of different approaches.
- Encourage students and teachers to share and respect each other's views. We are aware of different approaches to sexual orientation, without promotion of any particular family structure. The important values are love, respect and care for each other.
- Generate an atmosphere where questions and discussion on sexual matters can take place without any stigma or embarrassment.
- Recognise that parents/carers are the key people in teaching their children about sex, relationships and growing up. We aim to work in partnership with parents/carers and students, consulting them about the content of programmes.
- Recognise that the wider community has much to offer and we aim to work in partnership with health professionals, social workers, and other mentors or advisers.

Sex and Relationship Education in this school has three main elements:

Attitudes and Values

- learning the importance of values, individual conscience and moral choices;
- learning the value of family life, stable and loving relationships, and marriage;
- learning about the nurture of children;
- learning the value of respect, love and care;
- exploring, considering and understanding moral dilemmas;
- developing critical thinking as part of decision-making
- challenging myths, misconceptions and false assumptions about normal behaviour.

Personal and Social Skills

- learning to manage emotions and relationships confidently and sensitively;
- developing self-respect and empathy for others;
- learning to make choices with an absence of prejudice;
- developing an appreciation of the consequences of choices made;
- managing conflict;
- empower students with the skills to be able to avoid inappropriate pressures or advances (both as exploited or exploiter)

Knowledge and Understanding

- learning and understanding physical development at appropriate stages;
- understanding human sexuality, reproduction, sexual health, emotions and relationships;
- learning about contraception and the range of local and national sexual health advice, contraception and support services;
- learning the reasons for delaying sexual activity, and the benefits to be gained from such delay;
- the avoidance of unplanned pregnancy.

2. Aims

The aim of SRE is to provide balanced factual information about human reproduction, together with consideration of the broader emotional, ethical, religious, and moral dimensions of sexual health. Our SRE programme aims to prepare students for an adult life in which they can:

- develop positive values and a moral framework that will guide their decisions, judgements and behaviour; have the confidence and self esteem to value themselves and others and respect for individual conscience and the skills to judge what kind of relationship they want.
- understand the consequences of their actions and behave responsibly within sexual and pastoral relationships.
- avoid being exploited or exploiting others or being pressured into unwanted or unprotected sex.
- communicate effectively by developing appropriate terminology for sex and relationship issues.
- develop awareness of their sexuality and understand human sexuality; challenge sexism and prejudice, and promote equality and diversity
- understand the arguments for delaying sexual activity.
- understand the reasons for having protected sex.
- have sufficient information and skills to protect themselves and, where they have one, their partner from uninvited/unwanted conceptions and sexually transmitted infections including HIV.
- be aware of sources of help and acquire the skills and confidence to access confidential health advice, support and treatment if necessary
- know how the law applies to sexual relationships.

3. Organisation and Content of Sex and Relationship Education

Melland High School specifically delivers Sex and Relationship Education through PSHCE at KS3, KS4 and 6th Form.

SRE lessons are set within the wider context of the PSHE curriculum and focus more on the emotional aspects of development and relationships, although the physical aspects of puberty and reproduction are also included. The Science curriculum focuses on the physical aspects of development and reproduction. Any SRE lesson may consider questions or issues that some students will find sensitive. Before embarking on these lessons ground rules are established which prohibit inappropriate personal information being requested or disclosed by those taking part in the lesson. When students ask questions, we aim to answer them honestly, within the ground rules established at the start of the sessions. When it is felt that answering a specific question would involve information at a level inappropriate to the development of the rest of the students, the question may be dealt with individually at another time.

Assessment is carried out at the end of every module and involves teacher, pupil and peer assessment of knowledge and understanding, interpersonal skills, and attitudes.

4. Inclusion

Ethnic and Cultural Groups

We intend our policy to be sensitive to the needs of different ethnic groups. For some young people it is not culturally appropriate for them to be taught particular items in mixed groups. We will respond to parental requests and concerns.

Sexual Identity and Sexual Orientation

We aim to deal sensitively and honestly with issues of sexual orientation, answer appropriate question and offer support. Young people, whatever their developing sexuality need to feel that sex and relationship education is relevant to them.

5. Right of Withdrawal of Students from Sex and Relationship Education

Some parents prefer to take the responsibility for aspects of this element of education. They have the right to withdraw their children from all or part of the sex and relationship education except for those parts included in the statutory National Curriculum (i.e. in Science lessons). We would make alternative arrangements in such cases. Parents/carers are encouraged to discuss their decisions with staff at the and are welcome to review any SRE resources the school uses.
