

## Melland High School

### **Admission information 2021-22 for parents/carers of Year 6 pupils**

Melland High School usually offer guided tours and Q&A sessions for prospective parents and carers. Due to the current situation and following government guidance about COVID19, we are unfortunately not able to offer this at the present time.

We understand that you will be in the process of submitting your high school preferences and we invite you to visit our website and explore the school information and online news. There is also a useful welcome video for new starters, which gives an online tour of the school and facilities:
